"when outdoor meets indoor"

Leather

The unique innovation in leather
The outdoor leather is extremely hardwearing leather, which combines high technical qualities with captivating and enduring sensations of real leather.

It is permanently protected leather for outdoors and wet areas: patios, gardens, swimming pools and beaches. Our Leather is resistance to seawater, mold, chlorinated water, rain, dirt and is scratch free.

Our Leather is used for outdoors and in wet areas and is based on the sensible consideration.

Our Leather is SGS tested.

EVERY COLOR IS GREEN

Akzo Nobel is the world's leading paint and coatings enterprises, is also a leading producer of specialty chemicals.

All our products are handmade and with special skilled craftsmanship. only with using the best materials to meet up the international high quality standards.

Sunbrella fabrics are durable.

Sunbrella superior pigments are added during the production of fade-resistant Sunbrella fibre. The final result is Sunbrella yarn and fabric with colour throughout that won't fade or wash away. Think «carrot».

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The colour only penetrates the outer layer and washes out or fades away over time. Think «radish»

Sunbrella fabrics are easy to clean.

Sunbrella fabrics are amazingly easy to maintain, and most spills can be cleaned with mild soap and water. For tough stains, bleach can be used without fear of damaging the fabric or removing the color.

The best way to keep Sunbrella fabrics looking good is to properly maintain them by brushing off dirt before it becomes embedded and wiping up spills as soon as they occur.

Additionally, a topical finish is applied to all Sunbrella fabrics to help them repel liquids making it even easier to maintain.

Sunbrella fabrics protect you from the elements.

The Skin Cancer foundation recommends Sunbrella as a part of your complete sun protection regime, including regular use of sunscreen.

* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Velum
